HOSPITALITY SOLUTIONS

**CREATED FOR
HOTELIERS
BY HOTELIERS.**

CoHo, brings a level of expertise and reputation unmatched by any other hotel management company in the market. We strive to meet the complex needs of each individual operation or investor group in the most cost-effective manner.

For over twenty years CoHo has owned and managed hotels in the Pacific Northwest. We are committed to the success of our properties and seek to engage our teams through a hands on process, that focuses on real time results, managed by real people.

Many of our services are available as a complete package, or can be individually tailored to a property's or owner's specific project needs.

HOSPITALITY SERVICES

WE BELIEVE great results start and end with great people. We work from the ground up to create foundations that help drive and sustain revenues.

Our leadership approach begins with building a three part culture that is always focused on employees, owners and customers. We strive to uphold the fundamentals of what hospitality means to the long term success of our business. We engage employees in the process and enlist them to take on an owner approach in their day-to-day operations. We believe properties thrive with hands on, face-to-face management; our ability to provide support from hotel operations, revenue management, sales & marketing, food & beverage, finance, human resources and IT allow our owners to feel comfortable that we are thoroughly managing their asset and working to maximize profits, customers and employees.
